

FEEDBACK ACTION TAKEN REPORT

STACKHOLDER : STUDENTS		
S.No	Suggestions	Action Taken
1.	Students are interested to develop their knowledge towards recent development.	Technical training like IoT, Python Programming, data Science etc., are being conducted to improve their technical skills.
2.	Practical based learning should be increased on emerging technologies.	Design and animation for Photoshop designing, advanced machine component simulation using ANSYS, Staad.Pro, Building planning concepts for civil, Embedded design programming etc are being conducted for improving their emerging technologies.
3.	Students are expecting events related to life skill development.	Events like Seed ball making, Environmental sustainability related activities are done for life skill development.
4.	Expecting Guest lectures from various Industrial experts/ External resource persons.	Various Guest lectures were conducted for derivative and problematic paper, programming languages from subject Experts and external members.
5.	Students are needed extra inputs in improving programming languages	Students are provided with Skill development training especially in languages like python, for their placement, they are motivated to do projects in it.
6.	Students are interested in improving innovative thoughts in bringing new ideas.	Students are motivated towards improving their innovative thoughts by encouraging participating in Smart India Hackathon (SIH) and IIC-MHRD.

7.	Need training for development in interpersonal skills.	Aptitude and Soft skills training, Entrepreneurship and startup activity events were conducted to improve their interpersonal skills
8.	Tips to improve the students to become an entrepreneur.	Department was conducted a special talk regarding development in Entrepreneurship by the alumni students.
9.	Students are expected to observe their technical contents towards Industrial perspective and training.	Students are provided with Wipro Mission 10X, CISCO Networking Academy, PLC & SCADA etc towards industrial Training for their placement, they are motivated to do projects, also trained to get internship etc.,
10.	Students are interested to learn computerized machining process.	CNC Training programmes, ANSYS, PSPICE etc., are being conducted.
11.	Students are expecting Competitive training and exposure.	A special talk had been arranged for Competitive training and exposure.
12.	Students need some practical exposure related to basics of electrical components.	Department was conducted Workshops, skill development training with Hands-on session and Industrial project training were provided for the development of students.
