6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

The institution has established an IQAC after the first accreditation cycle. The institution obtained ISO 9001:2015certification in 2021. Quality assurance is a designated priority area for the institution with an IQAC Director reporting to the Principal in both academic and nonacademic function.

All decisions / recommendations of the IQAC are approved by the management for implementation during the Management Review.

Though we do not have an external member as part of IQAC as of now we intend to include such experts in the future.

Student representatives are included in IQAC, providing a platform for sharing their inputs on the teaching-learning process. Some aspects of the IQAC that deal with sensitive information pertaining to individual/institutional performance are kept outside the scope of student participation. Alumni contribute directly to the functioning of IQAC and provide valuable services to the college, giving their suggestions to the Management & also to the current students on what are latest in the employment market, vacancy positions and etc.,

Members of the IQAC are drawn from each department at the level of Head of the departments and the senior faculty. Intimation through Mail and Minutes of the meeting members are communicated of the information and details.
