**GOVERNANCE, LEADERSHIP AND MANAGEMENT**

**6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities**

The institution has an integrated framework for Quality assurance of the academic and administrative activities. The IQAC Cell under the leadership of the IQAC Director and with the active support of the different committees oversees all academic and administrative processes from a quality perspective. The members of the IQAC are faculty and staff members who routinely perform academic and administrative roles. Further, all the committees include faculty and staff from different administrative wings to ensure equal participation and contribution. During internal audits, the administrative units are also audited along with all academic units (departments and the library) for compliance. Thus, quality assurance is a holistic, integrated process at AIT encompassing all functional and operational areas.
